

# Setting up your GigaSpire Wi-Fi Extender

- 1 Connect GigaSpire Wi-Fi Extender to a power outlet.

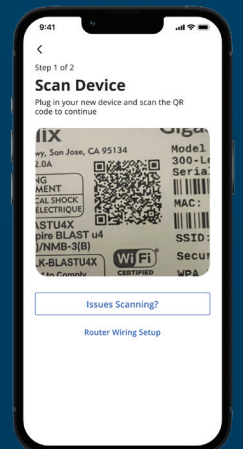

- 2 When the LED is flashing red, you can pair the GigaSpire Wi-Fi Extender with the GigaSpire Router.

Press and hold the WPS buttons on the GigaSpire Wi-Fi Extender and then the GigaSpire Router for 3 seconds each (less than 30 seconds apart). The LED will flash green while attempting to pair.

**Note:** Once successful pairing is complete, the GigaSpire Router and Wi-Fi Extender LEDs will both show a solid green color. It may take several minutes to reach this state.

- 3 If applicable, use the IQMAX app to set up the GigaSpire Wi-Fi Extender.
